COMPETENCY ASSESSMENT - OR Today

If you are receiving epidural or spinal anesthesia or undergoing spinal puncture, and taking LOVENOX Â®, you may be at increased risk of developing a blood clot in or around the spine, which can result in long-term paralysis. Your risk may be further increased if you:

LOVENOXÂ® U.S. HCP Site - Prophylaxis of Deep Vein

Even if a particular procedure or service is considered medically necessary, some payers impose limits on how many times a provider may render a specific service within a specified time frame.

Documenting to Support Medical Necessity

RETURN TO TOP October 16, 2018: Anecdotally Speaking: Many General Practice Vets are MVD-Quacks! Before publication of the EPIC Study in late 2016, the veterinary decision as to when to start medically treating mitral valve disease (MVD) in small breed dogs was pretty cut-and-dried.
