In statistical modeling, regression analysis is a set of statistical processes for estimating the relationships among variables. It includes many techniques for modeling and analyzing several variables, when the focus is on the relationship between a dependent variable and one or more independent variables (or 'predictors'). More specifically, regression analysis helps one understand how the ...

- 8 - It is not a drama of action and violence; although the emotions involved find violence expression in words. Also, it is not a drama of extremes; the lower depths of The Iceman Cometh and the domestic depravity of Mourning Becomes Electra have been left behind; and the mystical atmosphere of Lazarus Laughed appeared only as a remembrance of things past, "The past is the
