

Writing On Water Letter To A Chinese Parent On Music And Education

An ambition or wish or aim in the greatest motivation force that determines the course of one's life without exception is that a career should be chosen wisely. It is the greatest privilege of the great as inspiration and vigor to lead oneself for education as part of the career planning path. The one provided or not makes great difference in life and the ambition may be realized through hard labor and great sacrifice to reach the goal. One should be the ruler of his own life. The ruler of a man's future is in his own hands. When a man does not know what he is making for, he should be the agent.

There are as many aims as men. A man can be an officer, doctor, engineer, politician, house, business man, artist, scientist, etc. People choose their career according to their ability, needs and aptitude. Choose any profession in life to be a member of that great profession for the good of the profession.

Teaching is the profession most loved by Allah. There is a saying of the Holy Prophet (pbuh): "The best profession on the earth is that of teaching and educating. The prophet (pbuh) was ordered to give of his knowledge to all people. He was the teacher of the world. So the nature of all jobs. People in this profession can serve the nation in the best possible manner. Educating the coming generation is the greatest way to accelerating prosperity of the nation."

Teaching is the people who give enlightenment to others who launch a career against ignorance and who are the rulers of the destiny of the nation. Teaching is a hard working job that needs the job to finish with no leaving the job or a job of teaching. It means a labor which means at the same time but helps others to succeed together and higher.

Teaching is the profession which is the basis of all the other professions in the world. It is said that he has that work who reads the words. Clearly the brain that produces genius and intellectual, administrators, states, doctors, engineers, artists, scientists, scientists, all also owe the

The Greek alphabet has been used to write the Greek language since the late ninth or early eighth century BC. It is derived from the earlier Phoenician alphabet, and was the first alphabetic script to have distinct letters for vowels as well as consonants. In Archaic and early Classical times, the Greek alphabet existed in many different local variants, but, by the end of the fourth century BC ...
