XML, XSLT, Java, and JSP: A Case Study in Developing a Web

At the moment, I'm creating an XML file in Java and displaying it in a JSP page by transforming it with XSL/XSLT. Now I need to take that XML file and display the same information in a PDF. Is there a way I can do this by using some kind of XSL file? I've seen the iText Java-PDF library, but I can't find any way to use it with XML and a stylesheet.

How do you create a PDF from XML in Java? - Stack Overflow

Pro XML Development with Java Technology has been written to help you, the professional Java developer who needs a practical hands-on guide to marrying these technologies together effectively. There are a lot of books out there, but none really explore the combination deeply, and they are largely theoretical.
