YIELD CURVE ANALYTICS

yield curve analytics pdf

The Yield for a futures contract is calculated as the yield to maturity of a cash security with the following specifications: Settlement Date = last delivery day for the futures contract; Maturity Date = maturity date of the CTD cash security; Coupon Rate = coupon rate per annum of the CTD cash security

Treasury Analytics User Guide – CME Group

Yield management is a variable pricing strategy, based on understanding, anticipating and influencing consumer behavior in order to maximize revenue or profits from a fixed, time-limited resource (such as airline seats or hotel room reservations or advertising inventory). As a specific, inventory-focused branch of revenue management, yield management involves strategic control of inventory to ...
