MathType is a powerful interactive equation editor for Windows and Macintosh that lets you create mathematical notation for word processing, web pages, desktop publishing, presentations, elearning, and for TeX, LaTeX, and MathML documents.

Design Science: MathType - Equation Editor

Partial Derivatives - In this chapter we'll take a brief look at limits of functions of more than one variable and then move into derivatives of functions of more than one variable. As we'll see if we can do derivatives of functions with one variable it isn't much more difficult to do derivatives of functions of more than one variable (with a very important subtlety).

Calculus III - Pauls Online Math Notes

Whatever your specific circumstances, you're here because paying your auto loan has or is becoming impossible. Rather than dilly-dally, let's jump right into what you can do about those car payments.

I have no intention of taking it down or charging for it. However, it does cost me money to keep it running. So, I have a few advertisements and ask people to purchase card stock through this site. If you do not wish to buy card stock, then consider using this link to purchase anything from Amazon. How does the duplex (2-sided) layout work?
